What's New in the?

Requirements: An iPhone, iPod touch or iPad (iOS 5.0 or newer) ZWave Controller Client (ZWaveCommander.exe) (Mac OS X 10.6 or newer) iPhone / iPod Touch with a SIM Card A home network including a ZWave device and an internet connection Step 1: Install ZWaveCommander.exe on the iPhone/iPod Touch Step 2: Setup your ZWave Controller Client a) Install the ZWaveCommander.exe on the iPhone/iPod Touch. The ZWaveCommander.exe should be downloaded to your iPhone/iPod Touch via iTunes and in the Applications folder on your iPhone/iPod Touch. b) Click on ZWaveCommander.exe and choose "Open". c) Once opened, click on the "OK" button to install ZWaveCommander. d) Then, click on the "App Info" button and enter your ZWave Controller's IP address. Then, click on the "OK" button and wait for the ZWave Controller to be set up. You will need to enter a security code on the ZWave Controller. This security code is the "password" that you set up on the ZWave Controller itself and is not the "password" that you set up on your iPhone/iPod Touch. Then, click on the "OK" button and wait for the ZWave Controller to be set up. You will need to enter a security code on the ZWave Controller. This security code is the "password" that you set up on the ZWave Controller itself and is not the "password" that you set up on your iPhone/iPod Touch. Step 3: Set up your ZWave Controller Client a) Click on ZWaveCommander.exe and choose "Open". b) Once opened, click on "Connect to a ZWave Controller" to view a list of ZWave Controllers. c) Select your ZWave Controller from the list and click on the "Connect" button. d) Your ZWave Controller Client will then make a connection to your ZWave Controller. e) If your ZWave Controller Client can see all your ZWave Controllers, you will see "ZWave Controller Found". If your ZWave Controller Client cannot see your ZWave Controller, you will see "ZWave Controller Not Found". f) If your ZWave Controller Client is not connected to a ZWave Controller, you will see "No Controller Found". Step 4: Find Your ZWave Controller ZWave Controller a) Click on "Add a ZWave Controller" and then select the ZWave Controller from your home network. b) Click on "OK" to add your ZWave Controller. Step 5: Using Your ZWave
